DECLARATION OF INTENTION TO ORDER THE VACATION OF CERTAIN AIR SPACE ABOVE AND ACROSS PORTIONS OF MINNA AND NATOMA STREETS IN ASSESSOR'S BLOCK 3725.

WHEREAS, A petition has been filed by the San Francisco Newspaper Agency on behalf of the abutting property owners, The Chronicle Publishing Company and The Hearst Corporation for the vacation of air space above portions of Minna and Natoma Streets as such air space is shown on Department of Public Works Drawing No. SUR-1778 (full street width), a copy of which is on file in the Office of the Clerk of the Board of Supervisors; and

WHEREAS, Said air space above Minna and Natoma Streets is unnecessary for present or prospective street purposes; and

WHEREAS, The Department of City Planning, by letter of April 11, 1979, has reported that the proposed vacation is in conformity with the Master Plan provided that the conditions set forth in said letter are complied with, a copy of which is on file with the Clerk of this Board.

WHEREAS, This Board has reviewed and considered the information contained in the Negative Declaration certified by the Department of City Planning for the overall project; now, therefore, be it

RESOLVED, That it is the intention of this Board of Supervisors to order the vacation of this above-described air space over and across said portions of Minna and Natoma Streets as shown on the aforesaid drawing. Said vacation shall be done and made in this manner and in accordance with the provisions of the Street Vacations Act of 1941 of the State of California, as amended, and notice is hereby given that on the 1st day of October, 1979, beginning at 2:00 p.m. the Board of Supervisors will hear all persons interested in or objecting to the proposed vacation.

Upon vacation, the City's interest in the vacated street area shall be conveyed to the petitioners for the value of such interest as determined by the Director of Property, subject to the following conditions:

1. The petitioners shall relocate at their expense all street lights and other utility facilities affected by petitioners' construction plans for the vacated air spaces.

2. The petitioners shall install adequate ventilation and intensive but energy-conserving lighting systems in the covered portions of Minna and Natoma Streets and shall be responsible for the maintenance and operating costs of these systems.

3. The petitioners shall install and maintain landscaping and three outside seating areas in general conformity with the plan on file with the Department of Public Works entitled "San Francisco Newspaper Agency Expansion Plan, Preliminary Landscape Plan, March 16, 1979." The seating areas shall be maintained in good repair and kept free from litter and debris. In addition, a wall or other appropriate screening shall be added along the northwest side of Natoma Street behind the proposed seating area at Mary Street and extending to the southwesternmost portion of the parking lot, except that the wall or screening shall not block driveways required for vehicular access to Natoma Street. Additional trees shall be installed and maintained on the northeastern side of Mary Street between Howard and Natoma Streets to extend the landscaping on Mary Street closer to the Natoma Street intersection; provided, however, that the extension of the landscaping shall not interfere with vehicular access to the proposed loading docks in this area.

4. The petitioners shall apply for a revocable encroachment permit for the development of a pedestrian mall on Mary Street between

Mission and Minna Streets, as shown on the Preliminary Landscape Plan referred to above. Failure of the City to grant this permit shall not invalidate the vacation of the air spaces.

5. The petitioners shall provide large graphics along the walls abutting Minna and Natoma Streets under the aerial passageways. The proposed graphics shall be subject to the Art Commission's review and approval.

6. Construction in the vacated air spaces shall approximate the horizontal coverage generally indicated on the plan on file with the Department of Public Works entitled "San Francisco Newspaper Agency Expansion Plan, Site Plan, November 17, 1978."

7. The petitioners shall hold the City and its officers, agents, and employees harmless from, and indemnify them against, all tort claims, tort liability, and tort loss resulting from the construction, maintenance, use, or repair of any structures placed in the vacated air spaces.

8. The petitioners shall furnish and maintain in full force and effect an insurance policy (or policies) issued by an insurance company satisfactory to the City's Controller, which shall name as insured the City and its officers, agents, and employees, and which shall indemnify the City and its officers, agents, and employees against all tort claims, tort liability, and tort loss resulting from the use of the vacated air spaces. The policy limits shall not be less than $500,000 per person, $1,000,000 per occurrence, and $500,000 for property damage. Any such policy or policies shall be issued before the commencement of construction of any structures in the vacated air spaces. All policies shall be subject to approval as to form by the City Attorney and will be held by the City Controller.

9. If the construction of a building designed to occupy all or a portion of a vacated air space shall not be commenced within three years after delivery of the quitclaim deed from the City to the petitioners, said air space shall revert to the City; if a building occupying all or a portion of a vacated air space shall be destroyed or razed, and construction of another structure designed to occupy all or a portion of the air space shall not be commenced within three years after such destruction or razing, the air space shall revert to the City; provided, however, that if during a three-year period referred to above the owners of the air space shall be unable to construct such structure because of war, declared or undeclared, insurrection, unavailability of labor or materials, strike, lockout, acts of God, or other causes beyond their reasonable control, the three-year period shall be extended by a time equivalent to that during which such inability exists.

10. All buildings constructed in the vacated air spaces shall comply with the current San Francisco Building Code. In addition, the bottom slab of the aerial passageways over Minna and Natoma Streets shall not be less than of a four-hour fire resistance and the walls of the buildings on both sides of the enclosed streets shall not be less than of a two-hour fire resistance.

The rights, conditions and restrictions set forth in this Deed shall inure to the benefit of and bind the successors and assigns of the grantor and grantees.

The Clerk of this Board is hereby directed to transmit to the Department of Public Works a certified copy of this resolution,

MEMORIALIZING CALIFORNIA STATE LEGISLATURE TO ELIMINATE SECTION 647f OF THE PENAL CODE OF THE STATE OF CALIFORNIA.

WHEREAS, Several states throughout the United States have acted to decriminalize public inebriation; and

WHEREAS, These steps result from a recognition by law enforcement officials and other interested parties that the arrest, trial, and incarceration of public inebriates do not provide effective treatment for alcohol abuse; and

WHEREAS, The processing of public inebriation as a crime necessitates the expenditure of millions of dollars each year by the City and County of San Francisco; and

WHEREAS, The elimination of public inebriation as a crime would result in a substantial reduction in expenditures of local taxpayers' monies by the City and County of San Francisco without an increase in the potential for injury to person or property; and

WHEREAS, Judges, lawyers, and other participants in the criminal judicial system in the City and County of San Francisco have stated before this Board of Supervisors and elsewhere that treatment of public inebriation per se as a crime is unnecessary and unduly costly to the people of San Francisco; now, therefore, be it

RESOLVED, That this Board of Supervisors of the City and County of San Francisco does hereby memorialize the State Legislature to eliminate Section 647f of the Penal Code; and be it

FURTHER RESOLVED, That copies of this resolution be forwarded to her Honor, the Mayor, for transmittal to the members of the San Francisco delegation in the State Legislature with the request that all necessary action be taken to ensure that the intent of this resolution be carried out.

MEMORIALIZING THE SECRETARIES OF INTERIOR AND AGRICULTURE THAT THE CITY AND COUNTY OF SAN FRANCISCO IS NEUTRAL ON THE ISSUE OF WILD AND SCENIC RIVER STATUS FOR THE TUOLUMNE RIVER

WHEREAS, the Tuolumne River is a beautiful, pristine river affording the citizens of San Francisco, the State of California and the Nation the opportunity to hunt, fish, hike, camp, kayak, raft, photograph and relax in a natural and serene environment, and,

WHEREAS, the Tuolumne River was designated a study river by a 1975 Act of Congress for possible designation as a National Wild and Scenic River, and,

WHEREAS, the City and County of San Francisco has applied to the Federal Energy Regulatory Commission for a preliminary permit to construct additional hydroelectric facilities on the Tuolumne River (Clavey-Wards Ferry project), and,

WHEREAS, these proposed dams would destroy the Tuolumne River and forever remove it from the list of our rapidly diminishing natural resources, and,

WHEREAS, the Federal Wild and Scenic River Study Report and Draft EIS, prepared under the leadership of the National Park Service and the U.S. Forest Service, has recommended inclusion of the Tuolumne River into the National Wild and Scenic Rivers System as does the U.S. Fish and Wildlife Service, the California Department of Fish and Game, the California Department of Water Resources, the California Department of Boating and Waterways, the Sierra Club, Friends of the Earth, Friends of the River, California Trout, the American Federation of Fly Fishermen, and numerous other groups and citizens, and,

BOARD OF SUPERVISORS

FILE NO. _____ RESOLUTION NO. _____

WHEREAS, the San Francisco Public Utilities Commission recently passed a resolution against Wild and Scenic River status for the Tuolumne, as a reflection of the Public Utilities Commission's position on this issue, and,

WHEREAS, there is continued controversy and concern over the economic viability of the Clavey-Wards Ferry project and a National concern over the wisdom of destroying this truly remarkable and unique wilderness river, therefore be it

RESOLVED that the Board of Supervisors of the City and County of San Francisco informs the Secretaries of Interior and Agriculture that the City and County does not have an official position on Wild and Scenic River status for the Tuolumne River and that San Francisco's efforts in pursuing a preliminary permit for the hydro-projects are merely actions to keep the City's options open and are not to be considerd a statement one way or another on the fate of this river.

FILE NO. 444-78-1 RESOLUTION NO. 849-79

DECLARING OPPOSITION TO PROPOSED EXPANSION OF PACIFIC GAS AND ELECTRIC COMPANY'S POTRERO POWER PLANT AND URGING THE CALIFORNIA ENERGY COMMISSION TO DENY THE APPLICATION FOR SAID EXPANSION.

WHEREAS, Pacific Gas and Electric Company (hereinafter PG&E) has submitted to the California Energy Commission a proposal for expansion of PG&E's Potrero Power Plant, located in San Francisco on the southern waterfront between 22nd and 23rd Streets, in the Potrero Hill area; and

WHEREAS, The present Potrero Power Plant consists of six electric generating units presently in operation, and the expansion project proposes the addition of a Unit 7 and the retirement of two smaller-capacity Units 1 and 2 which have been in service since 1932; and

WHEREAS, The California Energy Commission, which has exclusive jurisdiction under state law for the siting of power plants, is currently engaged in a comprehensive study and review of PG&E's application for the expanded power plant, and, with the City and County of San Francisco as intervenor and reviewer, will focus its attention on the four major issues of air quality, socio-economics, water quality, and need for such a facility; and

WHEREAS, This expansion will have a negative air quality impact in an Air Quality District already designated at non-attainment, specifically, adding 44,000 pounds of additional pollutants per day, including carbon monoxide, NOX, particulates and hydrocarbons, thereby increasing existing health hazards; and

WHEREAS, Proposed new structures will increase the negative visual impact of the PG&E plant throughout southeastern San Francisco; and

WHEREAS, This expansion will increase potential public safety hazards in a densely-populated area, including explosion and fire

and will compound existing security risks; and

WHEREAS, The Proposed expansion is contradictory to labor intensive industry needed in District 7, an area whose unemployment figures are among the highest in the State of California; and

WHEREAS, The aforementioned impacts will deter prospective business operators and residents from locating or remaining in the area; and

WHEREAS, Potrero Unit 7 will thus adversely affect the San Francisco Central Waterfront Economic Strategy and the Potrero Hill Neighborhood Improvement Area, which represent substantial investments of public funds; and

WHEREAS, The need for expansion of the plant is not established; reference, California Energy Commission Biennial Report to the Governor, April - August 1979, which states that the growth rate of energy use in California has dramatically decreased since 1973; and

WHEREAS, Reliability of the low-sulfur oil supply needed for this facility has decreased and the cost of such fuel has greatly increased since PG&E's initial application; and

WHEREAS, Residents of Potrero Hill and adjacent areas express opposition to the proposed PG&E expansion project; and

WHEREAS, Brisbane, San Mateo County, has requested that said PG&E plant be located in Brisbane; now, therefore, be it

RESOLVED, That the Board of Supervisors of the City and County of San Francisco does hereby declare its opposition to the application now pending before the California Energy Commission for approval of the Pacific Gas and Electric Company's proposed Potrero Power Plant expansion and urges said application be denied; and, be it

FURTHER RESOLVED, That copies of this resolution be forwarded for immediate attention to the California Energy Commission, Environmental Protection Agency, Federal Department of Energy, Pacific Gas

BOARD OF SUPERVISORS

FILE NO 57-79-1 RESOLUTION NO. 884-79

RESOLUTION AUTHORIZING THE CHIEF ADMINISTRATIVE OFFICER TO NEGOTIATE AN AGREEMENT TO DISPOSE OF THE CITY'S SOLID WASTE AFTER 1983.

WHEREAS, San Francisco's current contract for refuse disposal with the City of Mountain View, California will expire in 1983; and

WHEREAS, The City is therefore facing a serious waste disposal problem and must act quickly to avoid a waste disposal crisis in 1983; and

WHEREAS, The City must reduce its reliance on landfilling as the primary method of solid waste disposal and desires to increase the recovery of valuable materials and energy from the waste stream; and

WHEREAS, In 1973 the Board of Supervisors passed Resolution No. 802-73 which designated the Department of Public Works as the agency with primary responsibility for preparation and coordination of a Solid Waste Management Plan for the City and County of San Francisco; and

WHEREAS, In 1974 acting upon the above-mentioned Resolution of the Board, the then Chief Administrative Officer authorized a joint project between the City's two refuse collection companies, Pacific Gas and Electric Company and the Department of Public Works, to investigate the possibility of converting solid waste into some form of energy; and

WHEREAS, In September 1978 the Sanitary Fill Company submitted a conceptual proposal for an energy recovery facility for San Francisco's waste at a site adjacent to the existing transfer station in Brisbane; and

WHEREAS, The present Chief Administrative Officer organized a review of that proposal by City personnel and the best possible solid waste and resource recovery experts to evaluate the technical, environmental, and financial information contained in that proposal; and

WHEREAS, The Chief Administrative Officer was advised that while the proposed project is technically and economically feasible, it has

certain risks. The consultant recommends that the project be contracted to a Joint Venture; and

WHEREAS, The Chief Administrative Officer's tentative conclusion is that a resource recovery plant should be built by a Joint Venture consisting of Sanitary Fill Company, which has a long and successful history as disposal agent for the City, and one or more other firms satisfactory to the Chief Administrative Officer with substantial resource recovery experience, financial resources, and dedication to this type of poject, and provided that the Chief Adminstrative Officer is satisfied that the design, construction, operation, and management of the plant will be carried out in a prudent, economic and environmentally sound manner; and

WHEREAS, The preparation and certification of a final environmental impact report on the above project will be completed by the City of Brisbane as lead agency, with appropriate input from and cooperation with the City as determined by the Chief Administrative Officer, in consultation with the Office of Environmental Review, Department of City Planning, prior to the time that the Board of Supervisors reviews and takes action on the proposed contracts; now, therefore, be it

RESOLVED, That the Chief Administrative Officer is authorized to enter into negotiations with a Joint Venture, as described above, to develop contractual arrangements for disposing of the City's solid waste after 1983. For reasons of economy, efficiency and dispatch, the City prefers to negotiate with Sanitary Fill Company to be a party to this Joint Venture; and be it

FURTHER RESOLVED, That the Chief Administrative Officer will establish a long-term Program to manage the City's solid waste. That Program shall allow for all appropriate approaches to solid waste managmement, including, but not limited to, reduction of waste at the

source; separation of waste materials at the source for ultimate re-use; continuing mass collection; processing and separation of materials collected; resource recovery and conversion to energy; sanitary landfill siting and disposal; and other ways of managing waste for purposes of the utmost economy, sanitation, conservation, environmental harmony, and reliability, so that solid waste management will be planned and performed for the greatest practical benefit of the people of San Francisco and of neighboring jurisdictions; and be it

FURTHER RESOLVED, That in light of the importance to the City of the proposed resource recovery plant and the proximity of the plant to the City, the Chief Administrative Officer, in consultation with the Office of Environmental Review, Department of City Planning, shall determine that the lead agency preparing the environmental documents for the plant and the participants in the Joint Venture have afforded the City during the environmental impact report process appropriate ~~and meaningful~~ opportunities, as determined by the Chief Administrative Officer, in consultation with the Office of Environmental Review, Department of City Planning, to participate in that process to ensure that the views, concerns, and requirements of the City are reflected accurately and approrpriately in the environmental documents to be prepared for the plant, which participation shall, in the discretion of the Chief Administrative Officer, in consultation with the Office of Environmental Review, Department of City Planning, be more substantial and direct than that normally afforded to responsible agencies under applicable environmental legislation and regulations; and be it

FURTHER RESOLVED, That as part of that Program the Chief Administrative Office, on behalf of the City and County of San Francisco, is prepared to negotiate a long-term (minimum 20 years) service contract for disposing of its municipal solid waste; and, be it

/ / / / /

FURTHER RESOLVED, That upon completion of all Joint Venture agreements the Chief Administrative Officer is directed to submit the final documents to the Board of Supervisors for approval; and, be it

FURTHER RESOLVED, That in order to safeguard the City's rate payers against financial and technical risks which are outside their control, the resulting agreement for the design, construction, and operation of an energy recovery facility, if one is approved by the Board of Supervisors, shall conform to the following principles:

1. The Joint Venture shall demonstrate that it has expertise, experience, and financial strength to insure the project's technical and economic viability. One member corporation of the Joint Venture shall have expertise in the design and construction of large refuse derived fuel plants (with rated capacity in excess of seven hundred fifty (750) tons per day.) Among the criteria for assessing the qualifications of the Joint Venture will be its financial capacity and its capability to assume significant technical and economic project risks. The Chief Administrative Officer shall have the right to reject the proposed Joint Venture.

2. Development of a resource recovery project has significant technical and economic risks associated with it. The Joint Venture will be expected to assume those risks which are reasonably under its control by guaranteeing a disposal price and the performance of its system. The City is willing to share those risks that are outside the reasonable control of the Joint Venture. In all cases appropriate benefit will accompany the acceptance of risk.

3. The City will assure that an adequate amount of solid waste will be delivered to the resource recovery plant.

/ / / / /

4. The Joint Venture will guarantee to annually process stipulated amounts of solid waste; annually produce stipulated amounts of energy; and annually dispose in landfill stipulated amounts of residue from the project. These activities shall conform to all applicable environmental requirements.

5. The City shall share responsibility with the Joint Venture for securing suitable sites for the project and solid waste residue disposal.

6. The City shall assist the Joint Venture with the acquisition of necessary permits required by the project.

7. The Chief Administrative Officer and the Joint Venture will develop a detailed financing plan for the project. The Chief Administrative Officer will participate in the project's financial structuring and financial implementation.

8. Consistent with City policy as stated in Section 12.B of the Administrative Code, the Joint Venture shall develop an Affirmative Action plan, with special consideration for women, minorities, and minority-owned businesses, that will be implemented throughout design, construction, and operation of the project.

9. It shall be the responsibility of the Chief Administrative Officer and the Joint Venture to encourage, organize, and obtain citizen advice and participation in the Program's policies and development, as may be required by law or as may be deemed appropriate or desirable by the Chief Administrative Officer. This shall include the responsibility of the Chief Administrative Officer to establish a Citizens Advisory Committee.

9/11/79
al

10. The City prefers an agreed-to price per ton for disposal of its delivered solid waste with an associated fixed rate to homeowners. The City will consider upward adjustments to this rate based on agreed-to conditions. The City will share in revenues from energy and material sales in a manner consistent with its assumed risks.

11. The City intends to enter into such an agreement only if the price offered by the Joint Venture is competitive with other disposal alternatives available to the City; and, be it

FURTHER RESOLVED, That the Chief Administrative Officer is directed to concurrently identify and analyze alternative landfill sites that can potentially be used to dispose of San Francisco's waste as a basis for comparing the cost of alternative disposal methods and to serve as a back-up disposal alternative; and, be it

FURTHER RESOLVED, That the Chief Administrative Officer will provide progress reports to the Board of Supervisors.
